

# Night Work – Badgerys Creek Road closure

April 2022

Dear Neighbour,

Western Sydney Airport (WSA) is relocating the existing round-a-bout at the Badgerys Creek Road and Pitt Street intersection to the west of its current location. Works are being completed by WSA's contractor, the CPB Acciona Joint Venture.

The upgrade will provide a safe access to the site for construction of the airport, and Sydney Metro - Western Sydney Airport.

As part of this work, we need to temporarily close Badgerys Creek Road during night shifts for up to eight shifts in total.

## When will work commence?

Work will commence from Monday 2 May and continue until Friday 13 May 2022, weather permitting. If we experience delays during these shifts due to weather, we will also work between Monday 16 and Friday 20 May.

Works will include:

- Relocation of utility services including electrical, communications and water services. There will be no interruption to your utility services during this work;
- Saw cutting the existing kerb and asphalt, and removing the existing road pavement;
- Preparing the foundation of the new round-a-bout and tie in sections; and
- Asphaltting work.

We will be using excavators, rollers, tipper trucks a milling machine, a saw cutter and other construction machinery to undertake this work.

You can expect to see increased construction activity in the work area outlined on the map provided on the following page.

## How will you be affected?

Due to busy traffic conditions during the day, we will do this work at night between 6pm and 6am, Monday to Friday.

During these night shifts we will temporarily close Badgerys Creek Road between 8pm and 5am.

We will also work extended hours on Saturday and Sunday during the day from 6am to 6pm. We will not work Saturday or Sunday nights.

We will do everything we can to keep disturbances to a minimum including completing the noisiest activities at the beginning of a shift (where possible) and switching off plant and machinery when not in use.

## Traffic changes

To create a safe zone for workers, there will be changed traffic conditions during the night work shifts including a full closure of Badgerys Creek Road. Detours will be in place for road users via Elizabeth Drive and The Northern Road.

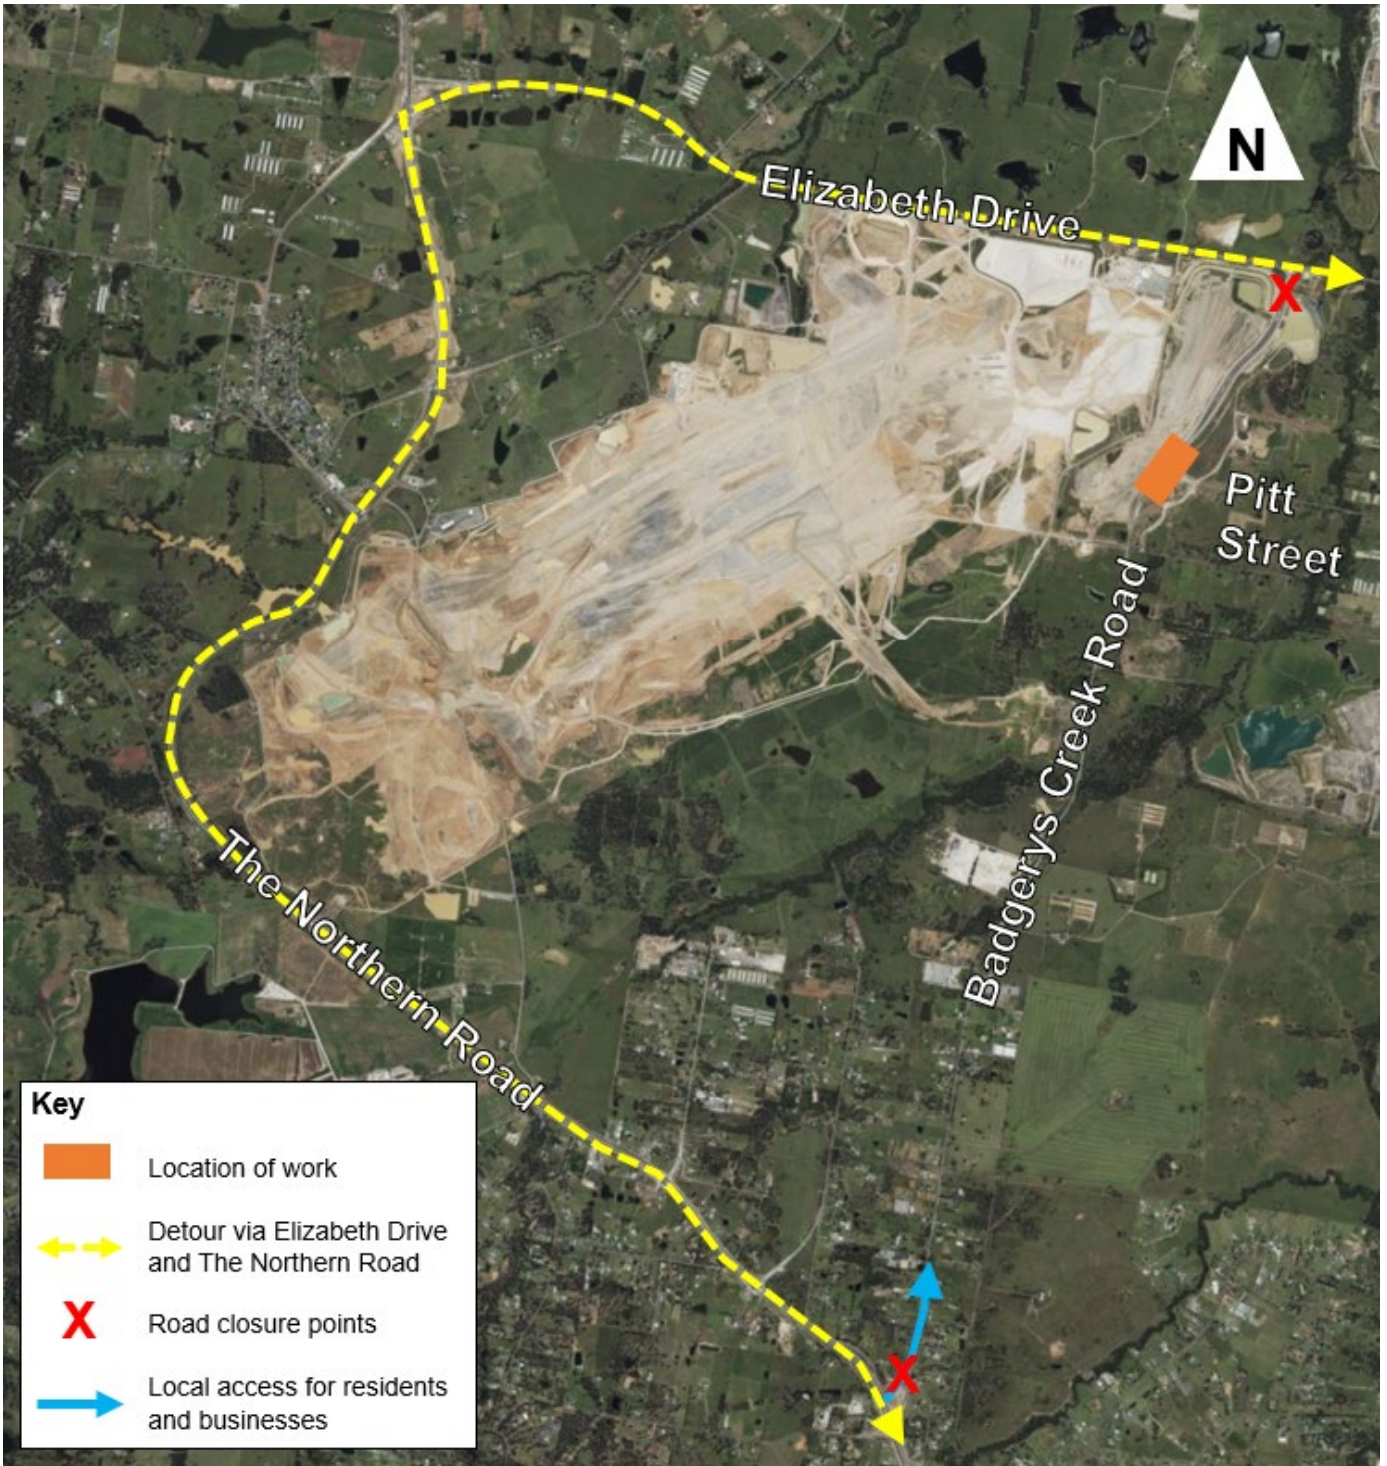

Motorists are advised to observe all project signage and traffic control directions during construction.

## Property access

Access to properties along Badgerys Creek Road will be maintained at all times during the closure. Access to properties should be made via The Northern Road, it will not be possible for motorists to enter Badgerys Creek Road from Elizabeth Drive during the closure.

Prior to the new round-a-bout opening, we will also close Badgerys Creek Road over one weekend to complete final road works. We'll notify you again prior to the weekend closure of Badgerys Creek Road.

Location of work and detour

Progress of the new round-a-bout starting to form. We will add a fourth 'leg' to the new round-a-bout on the western side which will create a new access to the site during construction.

Western Sydney Airport aims to transition to paperless, so we would appreciate your support in helping us issue our notifications electronically. Please send an email to [info@wsaco.com.au](mailto:info@wsaco.com.au) with your name, best contact number, address and preferred email address.

We welcome your feedback on how we can better engage with our community during our construction work.

For further information or enquiries about our construction activities, please contact our information line 1800 972 972 or send an email to [info@wsaco.com.au](mailto:info@wsaco.com.au)

We will continue to work closely with our neighbours as we deliver this project and other projects within the airport site to build Western Sydney International (Nancy-Bird Walton) Airport and we will update you as work progresses.
